SUMMARY

Computer Science Engineering student with strong programming fundamentals and a focused interest in Web Development. Skilled in building responsive and scalable applications, with foundational knowledge in Cyber Security and Networking. Passionate about solving real-world problems, continuously learning, and contributing to innovative and high-impact projects.

WORK EXPERIENCE

Software Engineer Trainee – *HJ Infotech* Sep 2026 – Present

- Working as a Software Engineer Trainee, contributing to the development and maintenance of full-stack web applications.
- Collaborating with the engineering team on building features, debugging issues, and following best practices in software development.

Software Development Intern – *HJ Infotech* March 2026 – Sep 2026

- Working as a Software Development Intern, contributing to the design, development, and testing of web application features.
- Collaborating with the engineering team on building and maintaining full-stack functionality using modern web technologies.

MERN Stack Training – *Grastech Pvt. Ltd, Noida* June 2025 – Dec 2025

- Completed hands-on training in full-stack web development using MongoDB, Express.js, React.js, and Node.js.
- Developed RESTful APIs, implemented JWT authentication, built responsive front-end interfaces, and integrated MongoDB database.
- Built and deployed full-stack applications following MVC architecture.

PROJECTS

Hotel Booking Website *(MongoDB, Express.js, React.js, Node.js)*

- Built a scalable hotel booking platform enabling users to search, book, and manage reservations with secure authentication and role-based access (Admin & User).
- Developed RESTful APIs with full CRUD operations for hotels, rooms, and bookings, integrated Cloudinary for image uploads, and ensured proper validation, error handling, and API security following MVC architecture and clean coding practices.

Code Reviewer *(MongoDB, Express.js, React.js, Node.js)*

- Built an AI-powered Code Reviewer using the MERN stack integrated with the Google Gemini API.
- The application analyzes user-submitted code and provides intelligent feedback, optimization suggestions, and error explanations. Designed RESTful APIs, implemented secure backend logic, and stored review history in MongoDB.

E-Commerce Food Website *(HTML, CSS, JS, React.js)*

- Built a responsive Food Ordering Web Application using React. Implemented global state management using Context API and Redux to manage cart and product data efficiently.
- Developed dynamic product listing, filtering, and cart functionality with optimized component rendering.

SKILLS

Programming Languages: JavaScript, Python, TypeScript, C Programming, C++
Frontend Development: React, Next.js, Redux, Context API, Tailwind, HTML, CSS, TypeScript
Backend Development: Node.js, Express, RESTful APIs, JWT Authentication
Database: MongoDB, Mongoose, PostgreSQL
DevOps & Tools: Docker, Git, GitHub, Postman, VS Code
Core Skills: Data Structures, Problem Solving, Networking Basics, State Management

EDUCATION

Arya College of Engineering (Affiliated to Rajasthan Technical University)
B.Tech in Computer Science and Engineering — CGPA: 8.5 | Sep 2022 – Jun 2026

Bindeshwar Singh College, Danapur
Senior Secondary (BSEB) — 70.06% | 2020

CERTIFICATIONS

- Participated in Hunt Till Down, organized by Arya College of Engineering, Jaipur.
- Certified in Web Development from Grastech Pvt. Ltd.
- Certified in C Programming from NPTEL.
